

Meet the Past at the Old Barracks Museum

Your group will be sent back in time to 1777 where they will be recruited into General George Washington's Army.

A soldier will prepare them for the realities of soldier's life, and even provide a live musket demonstration. They will be prepped for smallpox inoculation and learn about common 18th century medical practices. In **Meet the Past: Battle of Trenton** the group meets with a witness to the Battle of Trenton who recounts the crossing, the march, and the battle.
